

GENERAL TELEGRAMS.

A Telephone Convention.

Boston, May 19.—The American Bell Telephone Company has issued an invitation to the companies operating under its licenses throughout the country to send one delegate each to a conference to be held in this city on the 8th of June and continue to the 13th. During their stay the delegates will be the guests of the American Bell Telephone Company, and the call promises to bring together the largest and most important assembly of telephone men that has ever been got together. The object, as set forth, is that the parent company may take counsel with and consult its licensees upon questions affecting the interests of the telephone business in general and upon the relations existing between the parent company and the subsidiary companies.

An investigation by a legislative committee shows that the cost to the Bell Company of each instrument is \$3.42; the average annual rental is \$14—more than four times its cost. The net earnings of the Bell Company for the year ended March 1, 1885, were \$1,710,802.69, and the company, according to the statement of its officers to the committee, could have paid a 17 per cent. dividend on its present stock. The company now owns 329,826 telephones, of which 32,442 are in Massachusetts. The receipts for rentals for the year ended March 1 amounted to \$1,939,442.74. The company has received in dividends on stock in sub companies which it owns \$1,021,730.26.

Michigan Brickmakers' Strike.

Detroit, May 19.—The striking brickmakers at Spring Wells seem still confused as to their claims, but firm, nevertheless. During the winter the men were all idle, and only began to work a month ago at reduced wages. The strikers say they knew nothing of what their pay would be until the end of the month, and they wanted their employers to fix their wages when they began work. Others claim to be striking for an advance of \$2 to \$4 a month. A saloon in Spring Wells is the headquarters of the strikers, and they are disinclined to impart information. Some of the employers express themselves as unable to understand the cause of the strike, stating that the men seemed contented with what they received last fall, and no change had been made since. No violence has been yet reported to day. The teamsters have all joined the strike and no hauling was done to day. This morning a few of the compulsory strikers in Wolf's yard went to work, but some of the strikers immediately drove them from their work; some strikers were arrested. There has been made against the property of the manufacturers unless they come to terms. A secret meeting will be held to-night to appoint a committee to confer with the manufacturers.

The Relief Fund for Plymouth Sufferers.

PHILADELPHIA, Pa., May 19.—Another session of the committee of citizens appointed to receive subscriptions for the Plymouth sufferers, was held at the Mayor's office this afternoon. The contributions received by the Treasurer, Mr. A. J. Drexel, up to noon to-day, amounted to \$6,198. A communication was received from Dr. Thomas Bidde, a member of the Guardians of the Poor of this city, who has been to Plymouth for two weeks, in which he stated that there were thirty-two patients in the hospital at the present time, which number will be increased to sixty or seventy early in the week. There is no change in the epidemic. The letter also said that the disinfectant corps will commence operations to day. Dr. Bidde also stated that there were fewer cases of the fever yesterday than for over a week past, but he apprehended a spread of the disease if warm weather continued.

The Garnet's Experience at New York.

HALIFAX, N. S., May 19.—The inquiry of the naval authorities regarding H. M. S. Garnet's experience in New York harbor is supposed to be closed for the present. Vice Admiral Commaul favors sending to the Admiralty in London the papers regarding Lieutenant Gardner's action in releasing Boyton and the others captured in New York harbor without taking them to Captain Hand on board the Garnet. In the meantime Lieutenant Gardner remains under arrest on his ship. The entry on board the Garnet that night received forty-five days imprisonment, the severe punishment that Captain can give without referring the case to a Court Martial. No other persons on the Garnet are held blameable in the matter, and no charges were preferred against the Captain or any other person on board.

A Vendetta Fight Stopped.

LEITCHBURG, Va., May 19.—On Saturday last Peckers' Mill Village, in Amherst County, was the scene of a general fight between two families and their connections, in which pistols and other weapons were used. The officers of the law, however, had heard that the affray would take place and were prepared, and stopped the fight before any one was killed. The fight was the sequel to the following affair: A short time ago a handsome widow was engaged to be married to a prominent citizen in the neighborhood, who on his last visit to her house discovered his fiancée and a well-known physician together under suspicious circumstances. What he had discovered to worked upon the young man's mind that he shortly afterwards died a lunatic. The parties concerned all occupy high social positions, and until now the matter has been kept from the public.

Further Reductions in the Hoeking Valley. COLUMBUS, O., May 19.—Forty men began work mining at Straitsville yesterday at the reduced rate, forty cents per ton. These are understood to be men who were brought into the valley during the late strike. It is understood that the Union miners will make a strong effort to get them out, otherwise they will be compelled to work at this price which they consider starvation wages. Operators wish to make this rate apply to Straitsville alone, where the veins are of an unusual thickness. This is the first mine started at Straitsville since the long strike and the result will be watched with interest. Forest fires have been in progress at Straitsville since Saturday and have done thousands of dollars' damages, but are thought now to be under control.

Shot and Instantly Killed by a Woman. MENDOTA, Ill., May 19.—At 12 o'clock yesterday Mrs. John Bailey, wife of a miner in the employ of the Mendota Coal and Mining Company at this place, shot and instantly killed a man by the name of Browning. The circumstances which led to the murder, as near as can be ascertained, are about as follows: Browning having been informed that Mrs. Bailey's reputation in the community was not the best, endeavored to enter her house, but upon being refused by the woman, persisted in his advances, when she

drew a revolver and shot him. Browning was a married man, about forty-five years of age, living near Corydon, Iowa, and was here visiting a married daughter. Mrs. Bailey was placed under arrest.

Cheesley Chambers Out on Bail.

BLOOMINGTON, Ind., May 19.—The Mayor yesterday afternoon fixed Cheesley Chambers' bond at \$15,000, it being stated that Davis, the express messenger assaulted, was likely to die. A report reached town yesterday that William Chambers, a brother of Cheesley, was dying suddenly at his home near Harrodsburg. The symptoms were those of poison, and report gave rise to the theory that William was an accomplice of Cheesley, and had attempted suicide. Facts to settle these points have not been obtained, owing to the distance from a telegraph point. Cheesley, late last night, gave bond, and hastened to see his brother.

The Delphi Postoffice.

DELPHI, Ind., May 19.—A. B. Crampton was made happy this morning by receiving the news that he has been appointed Postmaster at this place. He was a Union soldier, and is the editor of the Delphi Times, the Democratic organ of this county, and an active politician. Major J. M. Watts, Postmaster since Grant's administration, resigned a month ago, and will leave the office with no charges against him. Some surprise is felt at the appointment, as Dr. E. Walker was an applicant and had a strong following.

Missing Man's Body Found.

PETERSBURG, Va., May 19.—The body of Robert Massingburg, of Sussex County, who has been missing the past three weeks, has been found near his parents' residence, a short distance from Waverly Station, on the Norfolk and Western Railroad. The supposition is that he was murdered. Most of the body had been eaten by dogs and buzzards. Massingburg's own dog was feeding off the body when it was found. Massingburg, when last seen, was on his way to visit his parents.

A Cyclone in Texas.

ST. LOUIS, May 19.—A cyclone struck the little town of Taylor, Tex., Saturday evening, and played havoc for a few seconds. The Missouri Pacific Railroad freight house was demolished, the round-house unroofed, the city hall wrecked, and more than a dozen other buildings were more or less damaged. The railroad company's loss is \$5,000, and damage to other buildings will reach \$12,000 to \$15,000. No lives were lost.

New Trial Refused McMullen's Murderers.

CRAWFORDVILLE, Ind., May 19.—Judge Britton overruled the motion for a new trial in the case of the McMullen murderers, Coffey and Dennis, this afternoon, and passed sentence upon them, fixing the date of execution on Thursday, September 3. On the way to jail Coffey tried to escape but was shot at by officer Cox, when he surrendered.

Texas Cattlemen.

KANSAS CITY, Mo., May 19.—Information has been received here of a new move on the part of cattle men in the northern part of the Texas Pan-Handle to prevent the driving of southern cattle over their ranges. A herd passing northward was stopped at Tascosa, on the Canadian River, by the Sheriff acting under a writ in trespass, and the matter has been carried into the courts with the intention of making a test case.

Logansport Notes.

Special to the Sentinel. LOGANSPORT, Ind., May 19.—The case of Alice Conroy, who is suing for \$10,000 from the Pan-Handle Company, is on trial. Mrs. Conroy's husband was killed more than a year ago.

Wood, of Indianapolis, the champion polo rider of the State, has joined the Broadway team of this city.

Governor Foster and General Beatty. COLUMBUS, Ohio, May 19.—Ex-Governor Foster is out in an interview in which he denies much of which appeared in an interview with General Beatty, a prominent candidate for Governor, to the effect that Foster was looking after Sherman's seat in the Senate, and that Foster had formed a combination with Foraker and Sherman looking to the chances of Foraker for Governor.

Suspected of Murdering Her Son. PETERSBURG, Va., May 19.—Henry and Liz Strokes (colored), of "Blacks and Whites," Nottaway County, have been arrested on suspicion of having murdered their son Samuel, who, it is supposed, was strangled by a blow and then buried alive. The feeling against the prisoners is very strong.

Beware of Articles Headed "Baking Powder Traps," "Poison at the Front Door," "Worse Than Sneak Thieves," Etc.

A cunning set of vendors of a cooking preparation have been, for years, imposing upon housekeepers. They have advertised their product as "absolutely pure;" all the time using a cheap poison, nature's sickening drug—Ammonia. The way they have imposed upon people has been by "alek advertising." The public have been caught by this large advertising, not knowing that their powder contained an animal excrement. Lately came forward the great chemists of this country and said: "This is wrong, the baking powder is poisoned with an excrement. Nature does not approve it. What has passed from the system should not re-enter as food." Our family physicians say: "The sale of the excrementous substance—Ammonia—in a food preparation is a horror, and should be made a State offense."

When the first thunder of the accusation came, they tried the plan of indifference. Now, wounded, they speak. To contradict the great chemists? No. They dare not say that their baking powder does not contain a principle of manure. Arraigned, accused, scientifically indicted for an outrageous trespass upon public innocence and public decency, they make no response, though their accusers occupy the highest chairs of scientific learning in the United States. Lately they have been spending some of the money accumulated by practicing a notorious deception upon society in newspaper speech, cunningly publishing articles under the heading of "Baking Powder Traps," "Poison at the Front Door," "Worse Than Sneak Thieves," etc., and palming them off as articles written by the editors. Is not the public tired of all dealing with a company that has so long sold them a baking powder containing a disgusting drug?

On the other hand, the chemists certify that "Dr. Price's Cream Baking Powder" is free from Ammonia, free from Lime, free from Alum, free from any ingredients not harmless and wholesome or not found in the foods provided by nature, and the "most perfect made." The United States and Canadian Governments have caused the baking powders on the market to be examined, and have placed "Dr. Price's" at the head of the entire list.

A PASTOR'S FALL.

The Suicide of Rev. Mr. Dally of New Jersey—A Prey to Remorse—His Peace and Home Destroyed by an Abandoned Woman.

[New York Herald.]

Racked by remorse Rev. Jonathan H. Dally ended his sufferings by committing suicide. This was the substance of a message received by Mr. Duane Searle, an intimate friend of the unfortunate clergyman, who resides in Jersey City, and is one of the officers of the Trinity Methodist Episcopal Church. This was the last church the deceased minister was pastor of. It was to Mr. Searle and his colleagues that on May 22 last the pastor made a confession that he was no longer worthy to be the pastor of the church, and surrendered his pastoral charge. He had been in charge of the church only a few days when he voluntarily severed his connection with it. His action during the brief charge had aroused comment. He was known as a brilliant pulpit orator and an earnest and tireless worker in religious matters. His sermons disappointed the congregation. They were commonplace and lacked rhetorical fire. He was nervous and rarely left his home. The last Sunday he occupied the pulpit he appeared to have mastered his nervous trouble. It was evident then that he had decided to relieve himself of the great burden he had so long borne and acquaint the church officials with his sin.

The cause of the pastor's downfall was a dissolute woman. While in charge of the Market Street Church, in Paterson, she appeared at his home one stormy night in the winter of 1883, and pleaded for shelter. She was homeless and friendless, she declared. He was a charitable man, but was loath to receive her. His wife interceded for the stranger, and the preacher reluctantly admitted her. The stranger was Ann Stewart, a feigned illness, and was nursed by the pastor's wife, who, although her health, expended her little strength in caring for the viper who poisoned her husband and destroyed her home. One night the Stewart woman moaned as if in great pain. Mrs. Dally, who was too feeble to leave her bed, crossed her husband. The plan of the woman succeeded. Mrs. Dally returned to his wife's room suffering intense agony. He made a confession to her, and craved her forgiveness. She forgave him. They decided to turn the destroyer of their happiness out of doors the following day. He did not execute this decision. The Stewart woman had fully recovered the next morning and greeted them with dearest. She boasted of having them in her power, and on pain of exposure insisted upon their retaining her as a member of their family. They feared her and dared not turn her away by her husband's wife. The woman of vicious habits, and created scenes while intoxicated at the pastor's home. When he was transferred to Jersey City she grew worse and was twice arrested for drunkenness.

To every one who narrated her terrible charges against the clergyman, she seemed him far blacker than he was. Almost nightly would she accost strangers passing the house by standing on the steps repeating her accusations. The pastor did not dispute her, but he and his wife invariably appeared to try and pacify her. Unable to endure the strain any longer, the victim of the abandoned creature's wiles determined to rid himself of the obnoxious woman by divorcing his wife. After his confession it was learned that the woman who had wrecked his life and home had destroyed other happy homes. She had been put away by her husband because of her faithlessness, and had avenged herself by leading married men to the path of ruin and then exposing them to their wives. She did not long survive her triumph. Relatives had her placed in an asylum for demented women, where she died. After his retirement Dr. Dally went to live with his aged father, a prominent resident of Woodbridge, N. J. He was stricken with illness, and a physician was furnished him by Mr. Searle and the stewards of the Jersey City Church, who deeply sympathized with the unfortunate man. He was ill for six weeks, when his physical strength recommended that he travel in the hope of regaining his health. Pastor Dally entertained the hope that his long and excellent service in the church would be considered when the conference was apprised of his fall, and they would mete out some mild punishment and not dismiss him from the ministry.

The conference resisted the influence brought to bear in his behalf. His punishment was accepted and his services were forgotten. The conference adjourned a few days ago, and Mr. Dally was acquainted with their judgment. He was at the time studying medicine in New Orleans. His memory and previous knowledge enabled him to complete his course in a few months. On April 27 he wrote to his wife at Woodbridge that he would that day start for St. Louis, where he intended locating, and expected her to join him there. He stated that he would write to her as he arrived at St. Louis. Mrs. Dally and her father waited impatiently for intelligence from her husband, but none came until Wednesday, a letter was received from the Captain of a Mississippi River boat plying between New Orleans and St. Louis.

Mr. Dally had been a passenger on his boat. He noticed that his passenger was an intelligent man, and evidently in great mental distress. He feared he contemplated suicide, and the Captain made him share his spacious stateroom. He always looked Mr. Dally in at night, so strong was his suspicion that he intended drowning himself. On last Friday night, while the Captain was absent, Mr. Dally forced open the door, and before he could be intercepted ran to the deck and jumped overboard. The steamboat was stopped and all the small boats were sent out to search for the man. He was seen to rise to the surface once, then sank and did not appear again. From letters found in Mr. Dally's writing desk the Captain learned the address of his relatives. The sad news was a shock so severe to Mrs. Dally that her condition is critical. She has no children. The officers of the Jersey City Church have arranged to have the body, when recovered, forwarded to that city. They have offered a reward for its recovery.

The unfortunate man was born in Woodbridge on October 7, 1838. He was a graduate of the Wesleyan University, and was admitted a preacher by the North Carolina Conference of the Methodist Episcopal Church in 1863. Desiring to labor nearer home, he was transferred to the Newark Conference in 1871. He was assigned to the church at Market Street, in Somerset County. His later charges were at Washington, Warren County; Roseville, Essex County; Market Street Church, Newark; Market Street Church, Paterson, and Trinity Church, York street, Jersey City.

Cold Water for Stock.

[Country Gentleman.]

Stockmen should be more careful at this time of the year when watering stock. No horse, cattle or sheep should be allowed to drink river water, which is just now more injurious in its chilling nature than water drunk in midwinter through the ice. Cold water is not fit for stock intended to do well and look and feed well. Clean river water is much better in summer than well water, while cattle should all be watered in winter from wells only; never from creeks or rivers on any account. The snow and ice-water of all early springs is not fit for cattle or horses, on account of its peculiar chilling

nature at this time of the year—for every chill nature sustains from imbibing such water the circulation is retarded and the vital forces are lessened materially. This condition requires more food than if not chilled by any cause.

Suspected Murderer Threatened With Lynching.

ST. LOUIS, May 19.—A special to the Post Dispatch from Little Rock, Ark., says that a finding in the woods near there the dead body of a man named Sanders, who mysteriously disappeared some weeks since. The body was horribly mutilated. William Lynch, of Taney County, Missouri, is suspected of having killed Sanders, and if this proves true he will probably be lynched.

Virginia's Wheat Prospect.

MILWAUKEE, May 19.—Randolph Harrison, Commissioner of Agriculture of Virginia, under date of May 16, to S. W. Tallmadge, of this city, says he has taken a trip through some of the wheat counties of Virginia and finds the condition of wheat and oats wretched. He estimated the State will not produce over 3,000,000 bushels of wheat this year against 7,000,000 in 1884.

Death of a Valuable Bull.

CHEYENNE, W. T., May 19.—Rudolph, the finest Hereford bull in the world, the property of the Wyoming Hereford Association, died last evening after a veterinary surgical operation, in which a tumor of sixty-five pounds was taken from him. He was valued at \$40,000.

The most stubborn cases of dyspepsia and sick headache yield to the regulating and toning influences of Hood's Sarsaparilla. Try it.

Dr. Sturtevant says that in the matter of seed corn his conclusion from experiments are as follows: 1. Kilm-dried seeds, or seed dried at a temperature of ninety degrees, perhaps more, is preferable to seed from the bin. 2. That every farmer cut seed to exercise the utmost care to avoid selecting mouldy seed, or seed from a mouldy lot of corn. 3. That compacting the soil over the seed as planted, if the soil is fit, will partly compensate for inferior seed. 4. That good seed will under certain conditions become an important factor toward obtaining the full stand which accompanies maximum crops.

The weight of fleeces on merino sheep is very great compared with the size of the animal. The Colorado ram Ramsy weighs 123½ pounds, and sheared thirty pounds of wool, unwashed, which is equal to one-fourth the weight of the ram. Thus it appears a sheep is compelled to carry one pound of weight for every four pounds of its own weight, which is quite a task, though apparently the sheep with heavy fleeces do not suffer any inconvenience except in warm weather.

Acute rheumatism is an inflammation of the joints, marked by pain, heat, redness and a tendency to suddenly shift from one joint to another. With these symptoms apply Serravallo's, the great pain cure, to the affected parts without delay. Price twenty-five cents a bottle.

TUTT'S PILLS

"THE OLD RELIABLE." 25 YEARS IN USE.

The Greatest Medical Triumph of the Age Indorsed all over the World

SYMPTOMS OF A TORPID LIVER.

Loss of appetite, Nausea, bowels constive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder blade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, weariness, Dizziness, Fluttering of the Heart, Dots before the eyes, Yellow Skin, Headache, Restlessness at night, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS RESULTS WILL BE DEVELOPED. TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer. They increase the Appetite, and cause the body to take on flesh, thus the system is nourished, and by their Tonic action on the Digestive Organs, Regular Stools are secured. Price 25 cents.

TUTT'S HAIR DYE GRAY HAIR OF WOMEN changed to a GLOSSY BLACK by a single application of this DYE. It imparts a natural color, acts instantaneously. Sold by Druggists, or sent by express on receipt of \$1.

Office, 44 Murray St., New York.

Quick Relief!

When a man has suffered from Rheumatism only a little while, and is relieved from his pain, he is happy and delighted. But suppose he has suffered for more than a third of a century.

● Alvin Grim, of Vale, Iowa, writes: ● "ARTHROPHOROS has helped me much. The ● pain in my limbs is all gone, but some time ● ago I was laid up, and will tell you ● that I have been troubled for thirty ● years with Rheumatism."

Mrs. A. B. Baker, of Chicago, Had rheumatic pains in her back for fifteen years.

And Mr. Baker had been the victim of Rheumatism until his head was drawn down over his left shoulder. Mr. Baker writes:

● "Half a bottle of ARTHROPHOROS made ● me as good as new. My wife has taken ● the other half, and has not complained ● of her back since. She says her back never ● so free from pain and ache as it has been ● since she has taken the ARTHROPHOROS."

There are many people who think that because they have suffered so long, and have tried so many medicines in vain, they must "suffer on their three score years." But you see what ARTHROPHOROS has done.

However Old Your Case: However Great Your Disappointments, Try ARTHROPHOROS.

If you cannot get ARTHROPHOROS of your druggist, we will send it express paid on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be soamed to try something else, but order at once from us as directed.

ARTHROPHOROS CO., 112 WALL ST., NEW YORK.

DYSPEPSIA

Is a dangerous as well as distressing complaint. If neglected, it tends, by impairing nutrition, and depressing the tone of the system, to prepare the way for Rapid Decline.

BROWN'S IRON BITTERS—THE BEST TONIC. Quickly and completely Cures Dyspepsia in all its forms. Heartburn, Belching, Tasting the Food, Ac. It enriches and purifies the blood, stimulates the appetite, and aids the assimilation of food. Rev. J. T. ROBERTSON, the honored pastor of the First Methodist Church, Baltimore, Md., says: "Having used Brown's Iron Bitters for Dyspepsia and indigestion, I can greatly praise it, and recommending it highly. Also consider it a splendid tonic and invigorator, and very strengthening."

Genuine has above trademark and crossed red lines wrapper. Take no other. Made only by J. C. FROST, BROWN'S IRON BITTERS CO., BALTIMORE, MD. LADIES' HAND BOOK—useful and attractive, containing list of prices for recipes, information about same, given away by all dealers in medicine, or mailed to any address on receipt of 25 cents.

BALL'S CORSETS—The ONLY CORSET made that can be returned by its purchaser for a full refund of the purchase money if not found "PERFECTLY SATISFACTORY" in every respect, and its price refunded by seller. Made in a variety of styles and prices. Sold by first-class dealers everywhere. Beware of worthless imitations. None genuine unless it has Ball's name on the top. CHICAGO CORSET CO., Chicago, Ill.

BEE-HIVE PLANING MILL, 73 Pendleton Avenue.
